

Any local car will do.
But once you've
driven a Mercedes,
you'll know the
difference.

RCCA Low Thien Yien
(Former Lawyer)

TY laughed when he recalled how he started his BE journey. “I struggled hard as I had no idea how to even sell **Aulora Pants**. They look like any ordinary black leggings you can get in the night market. But the price is obviously not a night market price!”

Yet, today, TY is the fastest promoted RCCA and the only RCCA to achieve Top 1 Ambassador Producer consecutively for the 1st cycle, 2nd cycle and 3rd cycle, “and, I think the 4th cycle should be my group too,” he beamed.

Legally miserable

A career in the MLM industry was never in TY's list of career choices. "Because of the TV shows I watched during my youth, I wanted to become a rich and famous lawyer."

So, upon obtaining his Bachelor of Laws from University of Wales, Aberystwyth, TY returned to Malaysia and joined one of the top law firms. "I worked hard and working overtime was the norm. My computer was my loyal companion and I had no social life at all."

TY had a promising legal future but reality took him to a different path. After investing 5 years of his life in the law

firm, he lost his work-life balance, had no social life and suffered poor health due to the stress. "I was desperate for friends, dying to talk to people. In reality, working in a law firm was far from the glamorous life portrayed on TV," he exclaimed.

They say money cannot buy happiness, but without money, TY would have to continue his hectic, miserable life in the law firm. So what was the alternative? "I thought if BE could give me a balanced life if I invested 3 years of hard work, I would work my butt off in BE," TY shared.

Happiness at last

To catapult his success, TY attended BE's many motivation events and learned from successful people. Gradually, he became confident. "Before, I used to envy successful businessmen but now, I can look them in the eyes, and boldly ask them, 'why don't you join me in BE?'," he said.

TY worked as hard to build his BE business as he did in the law firm, and saw 10 times more results! This inspired him to dream bigger. "Now, my goal is to achieve financial abundance. The only way I can do this is to ensure my downlines achieve financial abundance too. **This is the beauty of BE. I have to help others if I want to succeed.**"

"If you think your locally-made car is good enough, wait till you test drive a Mercedes. I didn't care much about cars. I loved my Myvi because it's easy to park and maintenance was low. But after driving a Mercedes, I know the huge difference. **It's good to be contented, but it's better to dream big,**" concluded TY, who now has countless friends, a healthy body and a fulfilling career in BE.
